

THURSDAY					
Pre-meeting (suggest 1300-1430) - Executive Committee Meeting (Vaad)					
1400-1600		<u>Welcome Reception, Meeting/Hotel Registration & Opening Exhibition</u> <u>"Trio" Lobby (including accompanying persons/family)</u>			
<u>Hall A ("Symphony" 1+2)</u>			<u>Hall B ("Symphony" 3)</u>		
<u>Mechanical Ventilation</u> <u>Chair: TBA</u>			<u>Occupational Lung Diseases</u> <u>Chair: Elizabeth Fireman, PhD</u>		
1600-1615	<u>Rare Lung Diseases</u> Anat Amital, MD, David Shitrit, MD, Ben Fox, MD, Leonardo Fuks, MD, Nir Peled, MD, Mordechai R Kramer , MD	<u>Chair: TBA</u> Lymphangioliomyomatosis in Israel	1600-1615	Elizabeth M. Fireman, PhD, Yehuda Lerman, MD, MPH, Medi Ben Mahor MD, Eliezer Ganor, PhD, Mordechai R. Kramer MD	Redefining idiopathic interstitial lung disease into occupational lung diseases by analysis of chemical composition of inhaled dust particles in induced sputum and/or lung biopsy specimens
1620-1635	David Lieberman, MD, Dvora Lieberman, MD	Ventilation in and out of ICU's. A comparative and prospective study of 641 ventilations	1620-1635	M. Stark, J. Zubareb, R. Jacovovitz, Y. Schwartz, Y. Lerman, N. Grinberg, and E. Fireman	HO-1 and VEGF gene expressions are time dependant during exposure to welding fumes
1640-1655	David Lieberman, MD, Dvora Lieberman, MD	Elderly ventilated patients – how do they fare ? A survival/ functional analysis at the end of hospitalization and one year later. A prospective study of 641 ventilations in the Soroka Medical Center	1640-1655	Elizabeth M. Fireman, PhD, Mordechai R Kramer, MD , Israel E. Priel ,MD, Yehuda Lerman, MD	Chronic beryllium disease among dental technicians in Israel
<u>Hall A ("Symphony" 1+2) - Plenary Session</u>					
1700	<u>WELCOME GREETINGS (Gershon Fink, MD)</u>				
1715-1730	<u>Resident's Award Winning Presentations</u> <u>Chair : Gershon Fink, MD</u>				
1730-1745	Einat Rabinovich, MD	RNA editing in skeletal muscle, before and after training			
1750-1805	Nissim Arish, MD	The role of hTERT in FAS -induced epithelial cell apoptosis and proliferation			
1815-1900	<u>Israeli Pulmonology – the first 60 years</u> <u>Chair: Israel E. Priel, MD</u> Round Table Discussion : Israel Bruderman , MD, Ami – Hai Rubin, MD, Shimon Spitzer, MD, With the contribution of Steven M. Scharf, MD.				
2000	<u>Poolside Gala Dinner</u>		<u>(including accompanying persons/family)</u>		
2100	<u>Poolside SHOW – Nitza Termin – "Gypsy Love"</u>		<u>(including accompanying persons/family)</u>		

FRIDAY					
Hall A ("Symphony" 1+2)			Hall B ("Symphony" 3)		
Lung Cancer Chairs : Amir Onn, MD, TBA			Lung Transplantation Chair: Mordechai R Kramer, MD, TBA		
0900-0915	A. Guber, MD, J. Greif, MD, R. Rona, E. Fireman, PhD, L. Madi, T. Kaplan, B. Pal, Z. Yemini, RT, M Gottfried and R. Katz, M. Daniely	The feasibility of computer assisted analysis of induced sputum using combined analysis of cytology and multi-color Fluorescence in situ Hybridization (FISH) for lung cancer diagnosis.	0900-0915	Leonardo Fuks, MD, David Shitrit, MD, Nir Peled, MD, PhD Benjamin D Fox, MD, Mordechai R., Kramer, MD	Bilateral lung transplantation via two sequential anterolateral thoracotomies versus clam shell incision
0920-0935	Nir Peled, MD, PhD, Dov Flex MD, Yael Raviv, MD, Ben Fox, MD, David Shitrit MD, Anat Amital, MD, Yael Refaeli, MD, Milton Saute, MD, Mordechai R. Kramer, MD	The role of routine bronchoscopy for early detection of bronchial stump recurrence of lung cancer – 1 year post surgery	0920-0935	Yael Raviv, MD, David Shitrit, MD, Anat Amital, MD, Ben Fox, MD, Ilana Bakal, RN Renana Z Tauber, MD Mordechai R. Kramer, MD	Carbapenem Resistant Klebsiella Pneumonia among lung transplant patients
0940-0955	Amir Onn, MD,	Novel Therapies for Advanced Non-Small-Cell Lung Cancer.	0940-0955	Anat Amital, MD, David Shitrit Yael Raviv, MD Ben Fox, Benjamin Medalion, MD Milton Saute, MD, Ilana Bakal RN, Mordechai R Kramer, MD	Development of malignancy following Lung Transplantation – a single center experience.
1000-1015	Ilan Bar, MD, FCCP, Michael Papiashvili, MD. Vladislav Gofman, MD	Thoracoscopic Lobectomy – a technically feasible procedure. New experience of the Department of Thoracic Surgery at the Assaf Harofe Medical Center	Pulmonary Fibrosis & Interstitial Lung Diseases Chairs: Raphael Breuer MD, Elizabeth Fireman PhD		
			1000-1015	Shulamit B. Wallach Dayan PhD, Regina Golan-Gerstl MSc, and Raphael Breuer MD	Resolution of Lung Fibrosis in <i>gld</i> C57BL/6 Mice by FasL ⁺ Immune Cells
Respiratory Physiology Chair: Issahar Ben Dov, MD					
1020-1035	Michael J Segel, MD, Einat Rabinovich, MD, Moti Mirali RT, Oshrat Yona, RT, Issahar Ben Dov, MD	<u>Metacholine challenge testing – is PC 20% holy ?</u>	1020-1035	Regina Golan-Gerstl MSc, Shulamit B. Wallach Dayan PhD, and Raphael Breuer MD	Fas activation in lung myofibroblasts upregulates TRAF/NF-kB signaling pathway with FLIP-dependency
1040-1055	Oren Fruchter, MD and Mordechai Ygla, MD	Response to bronchodilators after exercise challenge predicts bronchial hyperreactivity	1040-1055	Mordechai R Kramer, MD, Victorya Rusanov, MD, Anat Amital, MD, Nir Peled, MD, Ben Fox, MD, David Shitrit, MD	15-steps oximetry test as a predictor of survival in Idiopathic Pulmonary Fibrosis

FRIDAY (cont'd)					
1055-1115		COFFEE BREAK - "Trio" Lobby <i>(please note: registered attendees only)</i>			
Hall A – ("Symphony" 1+2)			Hall B – ("Symphony" 3)		
ASTHMA & COPD Chairs: Neville Berkman,MD, Amnon Ariel,MD			Sleep Related Breathing Disorders Chairs : Clement Cahan, MD, Nave Tov, MD		
1115-1130	Amnon Ariel, MD	Loss of elastic recoil in Asthma and COPD - the known unknowns.	1115-1130	Clement Cahan, MD, Yair Fuksman, MD, Armanda Baharav, MD, Michael J Decker, MD, William Reeves,MD, Prof. Solange Akselrod,	Autonomic Correlates of day – time sleepiness.
1135-1150	D. Ofir, P. Laveneziana, K.A. Webb, D.E. O'Donnell, Kingston, ON, Canada	<u>Evaluation of Bronchodilator Efficacy in Symptomatic Patients with GOLD Stage I COPD</u>	1135-1150	Zvika Shinar, MD, Shulamit Eyal, MD, Clement Cahan, MD, Armanda Baharav , MD	ECG derived respiration as a valid respiratory signal for detection of apnea- hypopnea events
1155-1210	Zeev Weiler, MD	Post exercise arterial compliance in asthma patients – the inflammatory connections	1155-1210	Clement Cahan, MD, William J Decker , MD, Zvika Shinar , MD, Shulamut Eyal, MD . Armanda Baharav, MD, William C. Reeves, MD	Multi center Validation study of an ECG based sleep diagnostic system
1215-1230	R. Soferman, MD, Elizabeth Fireman, PhD	The assessment of induced sputum in detecting <i>Aspergillus fumigatus</i> hyphae in steroid-dependent unstable asthma	1215-1230	Clement Cahan, MD, Armanda Baharav, MD , Micahel J Decker, MD, Zvi Shinar , MD , Shuli Eyal, MD, Sivan Mygdal, Roumiana S. Boneva, MD, William C Reeves, MD	Autonomic Nervous system dysfunction in Chronic Fatigue Syndrome – A population based study
1235-1245		COFFEE BREAK - "Trio" Lobby <i>(please note: registered attendees only)</i>			

FRIDAY (cont'd)					
Hall A – ("Symphony" 1+2)			Hall B – ("Symphony" 3)		
ASTHMA & COPD (cont)			TUBERCULOSIS		
Chairs: Neville Berkman,MD, Amnon Ariel,MD			Chairs : Zeev Weiler, MD,		
1245-1300	Neville Berkman, MD, Elat Bardach, MD,Raphael Breuer, MD	<u>Exhaled nitric oxide for the diagnosis of asthma in school pupils in Jerusalem</u>	1245-1300	David Shitrit, MD, Ben Fox, MD, Leonardo Fox, MD, Rachel Priess, RN, BA, Mordechai R. Kramer, MD	Rifampicin vs. Isoniazide for treatment of latent Tuberculosis
1305-1320	Martin Kohan, MSc, Raphael Breuer MD, Neville Berkman, MD	Osteopontin is essential for the development of airway remodeling in a murine model of asthma	1305-1320	Benjamin D Fox, MRCP (UK) BM, BS, Mordechai R Kramer , MD, FCCP, Rachel Preiss, RN , BA, Victoria Rosanov, MD, Leonardo Fuks, MD, Gai Steuer, MD, Ilanit Heim, RN, Meir Raz, MD, David Shitrit, MD	The QuantiFERON TB-GOLD Intube assay is cost effective for tuberculosis screening in healthcare workers
1325-1340	David Segev, MD, Doron Hermoni, MD,	Management of chronic lung diseases in the community.	1325-1340	Inbal Fuchs, MD, Lone Avnon, MD, Tamar Freud, ,MD, Mahmoud Abu-Shakra., MD	Treatment with tumor necrosis factor alpha inhibitors – increasing PPD: TB or not TB?
Special Session for Allied Personnel					
Chair: Amnon Ariel, MD, Zippi Yemini					
1345-1400	Boaz Tiran, MD	<u>Pre-flight evaluation of the high risk patient</u>	1345-1400	Danielle Bendayan, MD, V Polansky, MD,Klement Litman , MD, Atara Hendler, MD, L Traiser MD, Zohar Eliel, MD	Characteristics of Multidrug - Resistant Tuberculosis in Israel: . A retrospective study
1400	LUNCH <u>(including accompanying persons/family)</u>				
1730-1900	Hall A – ("Symphony" 1+2) - informal attire <u>Introduction</u> : Gershon Fink, MD General Assembly Meeting- Memebers debate on "Igud Reot" Issues				
2000	Dinner <u>(including accompanying persons/family)</u>				
2100	Friday Show – Sponsored by GSK – Dr. Tzachi Ben Zion – "Fxsuality" – communication and sexuality <u>(including accompanying persons/family)</u>				
SATURDAY					
Shabat activities; <u>(including accompanying persons/family)</u> - Sponsored by Teva - Pre-registration required on arrival - Accompanying persons/family – payment required , approx. 50 ILS/person					
1000-1300	<u>Kayak Tour</u>			<u>Along the Jordan Bank Walking Tour</u> <u>Suitable for Shabbat observers</u>	
Hotel Lunch <u>(including accompanying persons/family)</u>					
Motzaei Shabat – Adjourn, Safe trip Home!!
